1. Which line of code clears the picture box?

   PicDisplay.Cls

2. Write code that displays the first ten multiples of 3 in the picture box.

   Dim i As Integer
   For i = 1 To 10
       picDisplay.Print i * 3
   Next i

   OR
   For i = 3 To 30 Step 3
       picDisplay.Print i
   Next i

3. Write code that prints not only the numbers 1 to 10 in the picture box, but also the multiples of 5 beside it.

   Dim i As Integer
   For i = 1 To 10
       picDisplay.Print i & "   " & i * 5
   Next i

4. What is the difference between the 'SmallChange' property and the 'LargeChange' property?

   SmallChange is the amount the scroll bar value is incremented or decremented when clicking on the arrows.

   LargeChange is the amount the scroll bar value is incremented or decremented when clicking on the bar itself.

5. What are the limitations on the picture box? What other control/object would overcome these limitations?

   It is not possible to scroll data inside the picture box. A list box overcomes most of its limitations.
